

What if you could hire managers
who could grow your employee
and customer base—guaranteed?

Now you can.

Predictive Profiles can ensure the growth and success of your business by helping you hire the right managers. We offer screening and hiring tools designed specifically for predicting and measuring the likeliness of success for management positions.

The Predictive Profiles online assessment is easy to use and generates an instant electronic report. In addition, we work with you to interpret the results. Predictive Profiles—we take the mystery out of filling your most critical management positions.

Our management profiles allow you to:

- ***Measure key personality factors for management positions.***
- ***Determine if the candidate has the skills necessary to manage your employees.***
- ***Assess whether a good employee will make a good manager.***
- ***Assess whether a candidate without related experience will succeed in a management position.***
